WASHINGTON, D. C., Oct. 20. Not everything is cheerful here. Washington, already "waterlogged" by two days of rain and unnecessary inches of snow, with a probability that the 1932 rainfall will exceed all records before the end of October.

Officials and members of Congress, looking ahead to the coming winter, are worried. It is feared that the emergency in the district will not be able to take care of the poverty, and agricultural hunger, caused by depression.

Under the new Reconstruction Finance Corporation can any of its funds in this district.

However, "the rich have been hit hard," and agents that cannot feed the hungry in the nation's capital.

SENATORS BINGHAM OF Connecticut has a new packing-cash-producing-employment-relief plan.

When congress returns in December he will propose that the city

Viking Building

VIKING, Alta., Oct. 20.—After being buried in building a store here for brick veneer, the two men who were believed they clipped two colts to the wall, had been found.

The scull was found in the basement first newspaper volume to 11, which contained news of the two men's disappearance.

And whereas, although the farmers, with invincible optimism and a great deal of hard work, are getting back on their feet, the debts they owe to the banks are still very large.

And whereas, it is wise and right that, after reserving a sufficient part of the net proceeds to provide for the farmer and his family, certain debts against him, and other responsibilities contracted for the necessities of life should be removed from him.

And whereas, it is the desire of every farmer may have:

WASHINGTON, Oct. 20.—A statement that 270 electoral votes—four more than a majority—now could be mustered by the National Recovery Administration was delivered at the White House yesterday by Robert Lucas, chairman of the N.R.A. committee of the Republican national committee.

Father of Edmonton Man Dies At Age 53

ST. JOSEPH, Mo., Oct. 20.—George E. Montgomery, 53, one of the best known railroad men of St. Joseph, died yesterday. The president of the P.R.R. & Freight trainman, dropped dead at his home.

The body was sent to Modocine Hat for burial.

Montgomery had lived in western Saskatchewan and eastern Alberta for more than 30 years, having come to the country from the Brandon district.

Mr. Montgomery is survived by his wife, a son, in Modocine Hat, one son in Edmonton, and a brother at Kirkland, Saskatchewan.

THE WRONG HOUSE

EVANSVILLE, Ind., Oct. 20.—The Barkers have a dog to protect their home, but it is not a trained dog. Billie McMurtry, crier, called Mr. and Mrs. Barker and her husband went to visit her father-in-law, leaving the dog at home. While she was at her father's home, the dog passed to their last reward.

GAME WARDEN KILLED BY SHOT

SPOKANE, Wash., Oct. 20.—W. H. Minnick, deputy game warden for Spokane county, was fatally injured yesterday as he approached a group of hunters to inspect their licenses.

W. Austin, manager of a flour mill, who had agreed to supply the warden's revolver to his license when his gun was accidentally discharged, said Minnick was shot below the heart. The warden died an hour later. Austin was not held.

Stanford Shows Highest Voltage Ever Demonstrated

PALO ALTO, Calif., Oct. 20.—Laboratory lighting of 3,000,000 volts roared across a sharp gap in Stanford University—a flashing step toward conservation of power to be produced by the gigantic Hoover dam.

Prof. Harry J. Rean, who demonstrated the tremendous spark before 200 students, said it was the first time ever that such a voltage had been applied to the gap.

Sickness and accident insurance funds contributed to the amount of money to light an ordinary 25-watt bulb for 10 minutes.

The spark lasts one-tenth-millionth of a second.

The apparatus will be used to test insulation for super-power transmission lines from Hoover dam.

SEA TAKE LIFE

Two lives were taken by the angry sea. Stanley E. Bassett, 24, of Harwich, drowned in a vain attempt to rescue two men from a boat off Orleans; two drowning sailors drowned at Antiques Light. Gloucester fishermen, too, were swept to their deaths from a rock at Jamestown, R. I., by a huge wave.

PAUL MILNE, Minn., Oct. 20.—Rain, snow, sleet, and ice were general over the Dakotas Wednesday. Approximately two feet of snow fell in the Black Hills. Dakotas and roads in the northern Black hills were blocked with the "weeping" of the Deadwood-Lead highway.

Montana Has 13-Inch Snow

MILTON CITY, Mont., Oct. 20.—Rain, sleet, snow, and general weather in eastern Montana in 20 years, made roads impassable and brought snow to main highways.

The snow brought about six inches of snow to Billings and Williston, N.D. The storm subsided after a period of freezing weather continued.

McColl's affidavit said the Atlantic Petroleum Company was incorporated March 3, 1930, and represents the consolidation of 15 oil companies. Its stock was \$100,000,000, and its assets \$100,000,000. McColl charged that during the period the shares of stock were actually sold at less than \$100,000,000, which it could have been purchased for five cents a share.

STOCK HELD HERE

Consideration is being given in the Alberta Legislature to a bill introduced some time ago of a consolidation and urged to send its report to the government. It was stated that a fee was asked for this purpose, and none of the Edmonton oil companies that have been represented anything like the \$5 a share requested in the above bill. McColl's affidavit states that the stockholders of the company have not been dealt in here for some considerable time, and news that it had been sold to the public in New York at \$5 a share came as a surprise.

Edmonton oilmen believe that a share was nearer the mark.

CIVIL SERVANTS HEAR R. W. ELLIS

Dealing in an interesting manner with the unemployment relief situation in Great Britain, R. W. Ellis, president of the Alberta Civil Service association, addressed a meeting of that organization in the legislative building yesterday.

Mr. Ellis recently completed a tour of England, where he witnessed one of the interesting features of his sojourn in the Old Country was an interview with King George VI, presented by President Ramsay MacDonald.

When people there were hard hit by the depression, various organizations were making it easier for them to get along, and the standard of living said Mr. Ellis. He referred particularly to the National Union of the unemployed, which made it possible for people earning as low as \$10 and \$12 per week to purchase household necessities.

Sickness and accident insurance funds contributed to the amount of money to light an ordinary 25-watt bulb for 10 minutes.

Unemployment insurance in the United Kingdom is based on a scale of 60 per cent of the average wage, and about \$26 per week, paid to each person.

The speaker remarked on the fact that British goods are very well advertised in the British Isles, and suggested ways to buy goods produced within the empire.

BELIEVE SLAYER KNOWN TO POLICE

MANVILLE, Oct. 20.—That the identity of the slayer of William J. Parcells, well-to-do bachelor-farmer of this district, remains unknown to the police, is the belief expressed by many here and particularly so since the close of the inquiry into the death.

The inquest was completed at Vicksburg, Miss., yesterday, when the verdict was that Parcells died from gunshot wound inflicted by person or persons unknown.

While the identity of the killer was not known, the search for the wanted man has so far proved fruitless.

However, he is thought to be taken in custody, and the police believe he will keep over all ways of departure. He is expected to be taken in custody, and the police believe he will keep over all ways of departure.

Pictures of the wanted man are said to be in the hands of the police and once apprehended, it is felt that the chief criminal problem should be solved.

The inquest was adjourned for the fall session.

Dinner Dance Marks Close Of Country Club Season

Prizes Presented at Club House Wednesday Evening

Concluding the season's golfing with its round of gay social affairs as well as strenuous games and tournaments, the members of the Edmonton Golf and Country Club gathered at their club house on Tuesday evening to hold their annual banquet and presentation of prizes. Dinner was served in the cosy lounge where the women were the fire in the air—soft light from cream colored tapes livened up the room. P. W. Abbott, president of the club, acted as emcee and Mrs. H. M. E. Evans presided over the program. The men, Mr. George Kirkpatrick, Mr. J. C. Campbell, club, awarded the women's prizes. After the dinner hour dancing was enjoyed by all the members of the ladies committee in charge of arrangements were Mrs. H. M. E. Evans, Mrs. G. G. O'Connor, Mrs. E. B. Allespach, Mrs. Frank, Mrs. N. V. Cunningham, Mrs. S. S. Weston, Mrs. G. O. Farquharson, Mrs. W. Gorham, Mrs. Howden Emery and Mrs. Nina Ziegler.

SECOND SECTION

SEEK APPROVAL SCHOOL READERS

Four competitive sets of school readers for Grades I to VI have been submitted by Canadian publishers to the education department at the request of the minister for consideration and adoption, according to G. Fred McNauly, supervisor of publications.

In 1930 an inter-provincial committee was formed to review the books for their educational value. As a result of several meetings, publishers were advised of certain specifications for the books and were given a period

in which to prepare and submit their products.

The plan for examining and judging the books have not yet been completed, but it is being done.

Mr. McNauly is the Alberta representative on the examining and judging committee.

At best it is not expected that the new books will be ready for use until next fall.

All sets of books submitted appear to be first class productions, according to Mr. McNauly.

H. THOMAS has been here from New York who won \$10,000 in a sweepstake is in the city to attend the provincial Liberal convention and is staying at the Macdonald hotel.

J. E. T. MCNAULY, editor of the Toronto Star, company is a business visitor in the city.

The Cutty Sark club is holding a meeting in the Macdonald hotel at 8 p.m. on Thursday.

A. L. HERTON, editor of the Vegreville Journal, is in the city for the Liberal convention.

W. E. DRENCH, of the Calgary Cartage Company, is in the city on a business trip and is staying at the Royal George hotel.

JUDGMENT was reserved by the court on Thursday in the appeal of James Lee Fulton against the dismissal of his health care insurance case in Alabama.

The case was launched against the Wainawas Insurance Company. Argument had commenced on Wednesday. H. Friedman, K.C., appeared for plaintiff and W. R. Howson was for defendant.

BANK CLEARINGS for the week ending Thursday, October 20, totalled \$4,181,326, according to Edmonton clearing bank figures. Figures for the corresponding week last year were \$4,794,067.44.

DAMAGE is slight when fire breaks out at 2:30 a.m. Wednesday in the premises of the Edmonton Tent and Mattress Co. on 96 street. A fireman and a police constable were quickly on the scene. Firemen from number two fire hall who answered the alarm.

THE WOMEN'S LIBERAL CLUB of Edmonton, which has been active during the past year, will feature the annual meeting of the Edmonton Horticultural Society to be held in the council chamber of the Civic block at 10 a.m. Saturday. The Friday club will conduct luncheon to visiting women delegates in the presence of the Shafts club.

ELECTION OFFICERS for the forthcoming year, which will be the work of the past year, will feature the annual meeting of the Edmonton Horticultural Society to be held in the council chamber of the Civic block at 10 a.m. Saturday. The Friday club will conduct luncheon to visiting women delegates in the presence of the Shafts club.

EDWARD STOWELL will be present to receive the award for the best article for the afternoon court on the remainder being adjourned for a week.

Louis Ebenheimer, pleading not guilty to a charge of theft, was given a two month prison term by Justice J. W. G. G. Bowles. Accused was charged with stealing a pair of shoes from his employer and trousers from his employer's hired man. Accused explained that he had been unable to collect his wages and had taken the shoes and trousers to hit back at his cheating boss.

BAD COMBINATION (CONTINUED) GRATTON, Oct. 20.—One of Fred Macdonald's dairy cattle was killed in the drying yard of J. W. Judd and Son, Carville, by a pack of feral peccaries. The sheath drank up the water tank. In a short time the cow died from the combination.

The sale was officially opened by His Worship Mayor K. C. Howson and the city commissioners for the province, together with S. G. Freeman, government statistician, high praise for the party.

All sides will be the best seller.

That question none can answer.

The convention will give the answer.

But many names are being coupled with the leadership.

MARY STURGEON

and W. McDonald, K.C., whose resignation for the last two years, has been taking place before the convention, may be the best seller.

Others, and withdraw his resignation, according to some. Others feel he made effectual efforts.

Joseph T. Shaw, K.C., former leader of the Civic block, was being prominently mentioned as a leader should he desire to "come back."

George H. Webster, Liberal house leader for the last two sessions, is another name mentioned as a possible leadership. His health has not been too good for the last year, but should he return to the Civic block, he is assured of much support from the people of the province.

MARY OTHER NAMES

There are many others whose names are being suggested. R. C. McNauly, K.C., and J. W. G. Bowles for Calgary; H. E. McLaughlin, K.C., A. Giroux, J. C. Bowen, J. Howson, all of Edmonton, are receiving their share of discussion.

Nominations for leadership will be open on Friday evening, Friday and balloting will take place after the evening meeting adjournment.

The election of the convention will be known.

THE INQUIRING REPORTER

It has been stated that, regardless of universal depression, France shows signs of progress and that the country is making account for that?

Such was the question asked Thursday night by The Bulletin's Inquiring Reporter and below are the answers.

C. MELVILLE, mechanic—"France has been able to keep her unemployment down to a minimum. Due to the fact that the French are a man power as a result of the war, it is necessary for her to employ foreign labor to fill the labor contract. When the job for which they are hired is completed, they must return to their own country."

ALIX RIDDELL, Detective:

"France has built her economic structure slowly and carefully. Her industrial armament has been business conservative, built up on earnings—not on credit. It is natural that the French are not affected by the depression as those whose sole aim is to keep their top without leaving anything to fall back on."

JOHN VAN DEELEN, engineer:

"France has been the factor contributing to the prosperity of France today is strict government supervision of its currency. Bankruptcy laws are stricter and government intervention is infrequent with regard to business racketeering. Political corruption is not so prevalent in France as it is in other countries. The government is beneficial to the country as a whole."

WM. LAMB, policeman:

"France, too, has been affected by the depression. She has not been favored with such industrial success as Canada and the U. S. she does

not have the same kind of

industry as we have here.

HEALTHY TONE GIVEN WHEAT MARKET TRADE

WINNIPEG, Oct. 20.—Lightness of offerings and good purchases of Canadian wheat by continental interests gave a healthy tone to the local grain market today. Trading was not of large proportions but closing prices reveal a general improvement built yesterday's final figures.

October closed at 44¢; November at 44¢; December at 44¢ and May at 24¢.

WINNIPEG, Oct. 20.—Prominent interests were out to buy the burlap bags of the May future, and this together with the general interest shown by the firms of the nearby grain elevators.

More prominent in local strength, however, was the movement of burlap bags to country elevators, no doubt due to the heavy rains in the prairie provinces, where heavy falls of snow have been reported. This has been said to have lowered the grade of wheat in the prairie provinces.

In early spring weather in Western Canada has been unusually warm, and warmer temperatures are reported in Alberta.

Trading in cash wheat was slow and steady, with a few sales of winter wheat done. A few sales of spring grain continued, and were cope fine in the market.
